

## Change Log

Product Version: **8.7.0.8**

Date: **09/28/2018**

### Maintenance Issues Resolved in 8.7.0.8

ID / LID (Legacy ID)	Content Matrix Edition	Title	Support Ticket Id
<b>378185</b>	SharePoint Edition	When migrating from SPO to SPO some web part pages are having their web part zones modieied to "Zone=Left" on the target even if the source Zone was set to a different value.	00163373
<b>380697</b>	SharePoint Edition	When using Distributed Migration jobs are getting an incorrect password applied to them, resulting in the job failure, if there are multiple connection to the exact same source, with the same user but a different password.	00165227
